Walters Puts Finishing Touches on New Ship Bottom Headquarters

New Location Combines Custom Homes, Architecture, Realty Office

SHIP BOTTOM, N.J. (Sept. 28, 2023) — [Walters](#) has taken occupancy of its newly constructed custom homes headquarters in Ship Bottom. The two-story, 5,000-square-foot building at 701 Central Ave. houses two divisions of the award-winning development firm: Walters Homes, including a sales and design center, and Walters Architecture.

“We’ve designed our new custom homes headquarters to better serve Long Beach Island by offering services that bridge the gap in custom homebuilding and design,” said Ed Walters Jr., president and founder of Walters. “At this new location, clients will work with our experienced team of architects, designers and sales professionals to put together a customized game plan for their new home.”

Walters occupies the building’s second story. The first floor will house a real estate company and a restaurant user – both to be announced in the coming months.

In nearby Ortley Beach, another Walters sales office opened this summer. Located on the corner of Route 35 and 3rd Ave., that operation serves as the central hub for the Osborn Dunes at South Mantoloking development in Brick, N.J.

With its main headquarters in Barnegat, N.J., Walters is a leader in sustainable construction and has residential developments throughout Ocean County. The privately held firm is committed to the highest construction standards and environmentally responsible building practices. Since 1984, Walters has grown steadily; the company also includes Walters Apartments, based in Haddonfield.
