Center City Philadelphia's Logan Square Rehab & Healthcare Enhances Programming and Clinical Leadership Team

New Pulmonary, Orthopedic Specialties Meet Regional Demand

PHILADELPHIA (June 17, 2026) – Two new, physician-led specialty care initiatives at Logan Square Rehabilitation & Healthcare Center in Philadelphia have launched as a direct response to regional healthcare demand. The Center City skilled nursing center now features both RespiraCare pulmonary rehab and OrthoWin, a subacute care offering for orthopedic recovery. Located at 2 Franklin Town Blvd., Logan Square provides post-hospital care, short-term rehab and long-term residential care.

"Logan Square Rehab & Healthcare is committed to providing transformative programming and enhancing quality of life for those in their care," said Celeste Foltz, regional director of market development at Marquis Health Consulting Services, which supports Logan Square. "The additions of RespiraCare and OrthoWIN reflect the center's emphasis on developing in-demand initiatives in partnership with leading area healthcare providers. In turn, this is reinforcing its position as a destination of choice for skilled nursing in Philadelphia."

Aloknath A. Pandya, MD, founder of local pulmonary and sleep consultancy Spiromedics, is leading Logan Square's RespiraCare pulmoary rehab program. Services aim to reduce pulmonary symptoms, decrease disability, increase participation in physical and social activities, and promote independence and quality of life.

The initiative caters to individuals with a range of diagnoses and conditions. In addition to consults with Dr. Pandya, Logan Square pulmonary patients benefit from the availability of non-invasive ventilation support and 24/7 access to lab and radiology services, with an extensive range of therapy services offered seven days per week.

Logan Square's OrthoWin program is directed by Physical Medicine and Rehabilitation (PM&R) specialist Luke Musser, MD, of Jefferson Health's Magee Rehabilitation, with the support of the skilled nursing center's interdisciplinary care team. OrthoWin accommodates patients recovering from a range of orthopedic surgeries and injuries; it is ideal for those with co-morbidities or without the social support to recover at home independently.

PM&R, also known as Physiatry, focuses on the restoration of health and function with an integrated treatment plan including pain management and physical therapy. OrthoWin's "whole body" approach features a guided plan, seven-days-per-week therapy services as warranted, coordination with a patient's surgical team on preferences, and wound care management.

Logan Square Rehabilitation & Healthcare Center is part of the only Continuing Care Retirement Community (CCRC) in Philadelphia's Center City district. The campus – which is in the midst of an expansive renovation – also features Fountain View at Logan Square, a luxury independent senior living high rise, and personal care and memory care at Logan Square Enhanced Senior Living. More information can be found at logansquarerehab.com.

Marquis Health Consulting Services provides administrative consulting services to skilled nursing facilities and senior living communities along the Eastern Seaboard. The company's "Care, anew" philosophy supports its mission to help clients transform industry processes, mindsets and outcomes. Marquis-serviced skilled nursing centers have access to an evolving suite of clinician-led specialty care models, signature services and comfort features – enabling innovation, compassion and purpose in every aspect of care.
