For Immediate Release

Riverside Post Acute in Jacksonville, Fla., Introduces In-Facility Urologic Care in Partnership with Streamline Urology

Capability Bridges a Persistent Gap in Post-Acute Care

JACKSONVILLE, Fla. (Oct. 8, 2026) – Riverside Post Acute has partnered with Streamline Urology, bringing on-site urologic care to the Jacksonville skilled nursing center. Located at 1750 Stockton Street, Riverside Post Acute has a long history of serving the regional community, providing post-hospital care, short-term rehab and long-term residential care.

A physician-owned mobile specialty practice, Streamline Urology is an established regional provider of urologic care within skilled nursing and post-acute facilities. Comprehensive services range from catheter management and urinary retention, to oversight of complex chronic conditions, among others.

Access to on-site urologic services is a persistent gap in post-acute care that can lead to complications and hospital admissions, noted Pam Montemurno, regional director of market development at Marquis Health Consulting Services, which supports Riverside. “The Riverside team is pleased to partner with Streamline Urology, bringing specialist-level urologic services to all those in their care. The providers at Streamline integrate seamlessly with Riverside’s dedicated clinical care team.”

Riverside recently marked the completion of a multi-million-dollar, top-to-bottom modernization. As part of the update, the center upgraded its long-term care resident rooms and subacute wing, as well as the front entrance and courtyard along the St. John’s River. A highlight of the renovation is its newly expanded, state-of-the-art rehab therapy gym.

During the modernization, Riverside continued to enhance its programming, including its opening of the Journeys Memory Care neighborhood, a person-centered, comprehensive memory care model, which is available to Marquis clients. Specialty clinical offerings also include CardioPro cardiac rehabilitation, backed by Riverside’s designation as an American Heart Association Heart Failure Certified Skilled Nursing Center. Marquis Health Consulting Services provides administrative consulting services to skilled nursing facilities and senior living communities along the Eastern Seaboard. The company's "Care, anew" philosophy supports its mission to help clients transform industry processes, mindsets and outcomes. Marquis-serviced skilled nursing centers have access to an evolving suite of clinician-led specialty care models, signature services and comfort features – enabling innovation, compassion and purpose in every aspect of care.
